

Understand Overall Transaction Volume Across Transaction Types

BUSINESS PROBLEM

Determine which transaction types generate the highest transaction activity.

REQUIRED COLUMNS

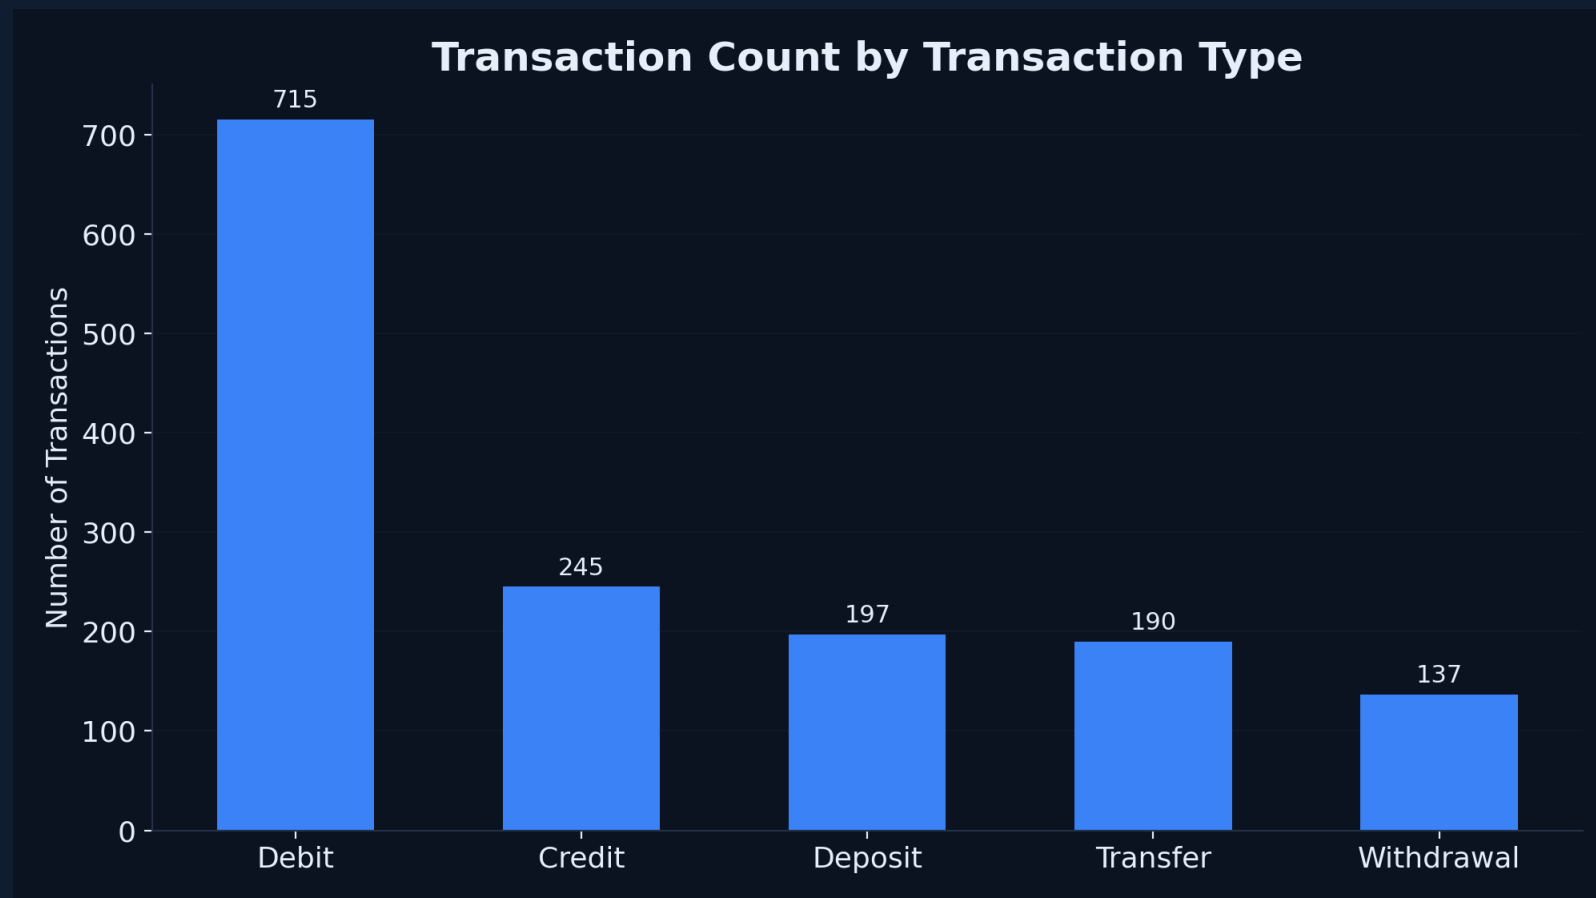

- transaction_type
- transaction_amount
- transaction_id

RECOMMENDED VISUALIZATION

Clustered Bar Chart

BUSINESS TAKEAWAY

Understanding transaction activity by type helps the organisation identify which services drive the greatest customer usage and where business resources should be prioritised.

Evaluate Transaction Success vs Failure Performance

BUSINESS PROBLEM

Analyze operational performance by reviewing transaction outcomes.

REQUIRED COLUMNS

- transaction_status
- transaction_id

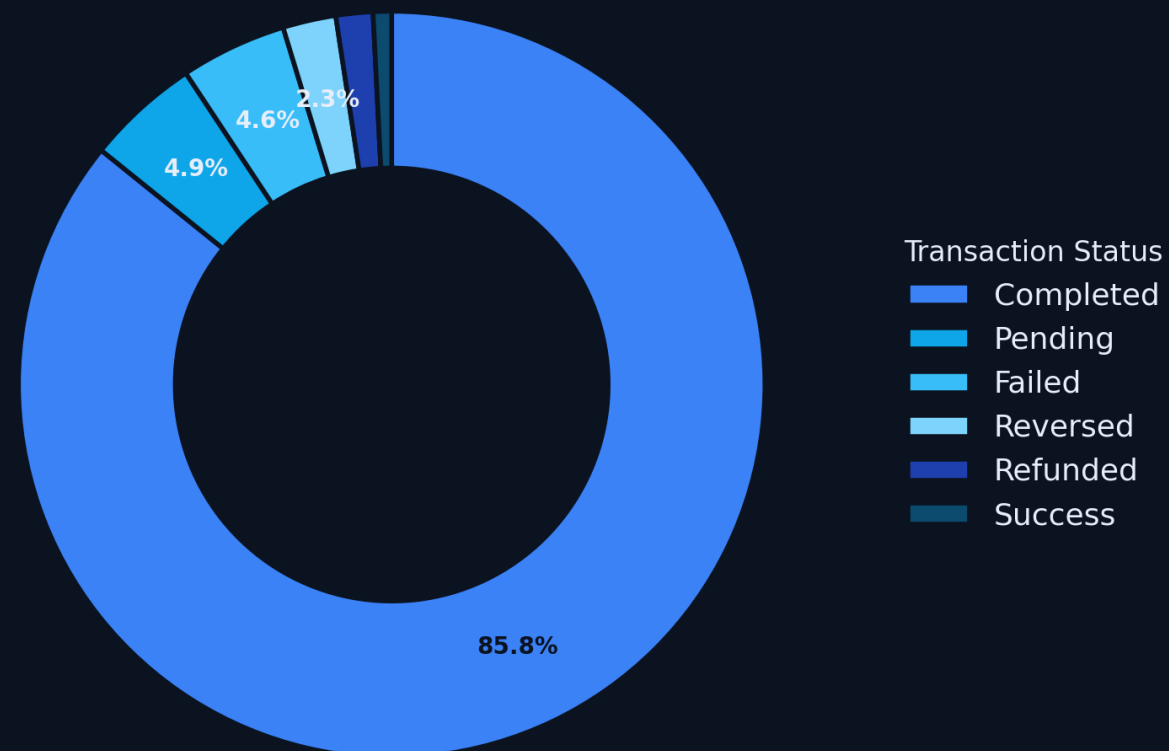

RECOMMENDED VISUALIZATION

Donut Chart

BUSINESS TAKEAWAY

Monitoring transaction outcomes helps the organisation identify potential processing issues and maintain reliable customer payment services.

Transaction Status Distribution

BUSINESS PROBLEM

Understand which payment methods customers prefer.

REQUIRED COLUMNS

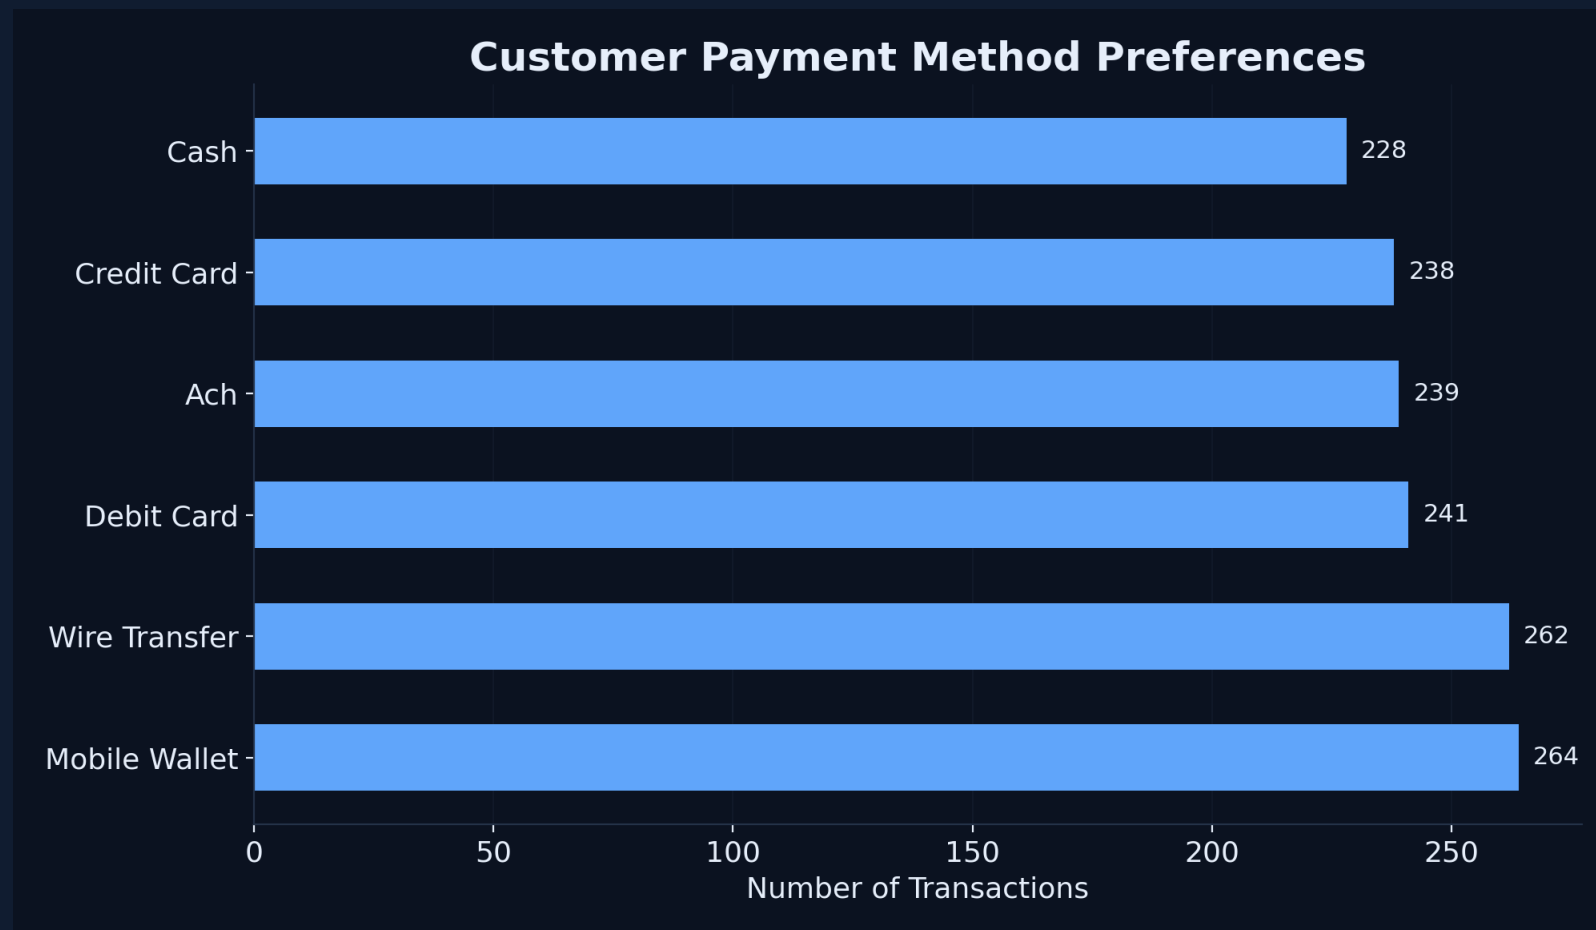

- payment_method
- transaction_amount
- transaction_id

RECOMMENDED VISUALIZATION

Horizontal Bar Chart

BUSINESS TAKEAWAY

Understanding payment method adoption helps the organisation align its payment services with customer usage and improve the overall payment experience.

BUSINESS PROBLEM

Determine which merchant categories receive the most customer spending.

REQUIRED COLUMNS

- merchant_category
- transaction_amount
- transaction_id

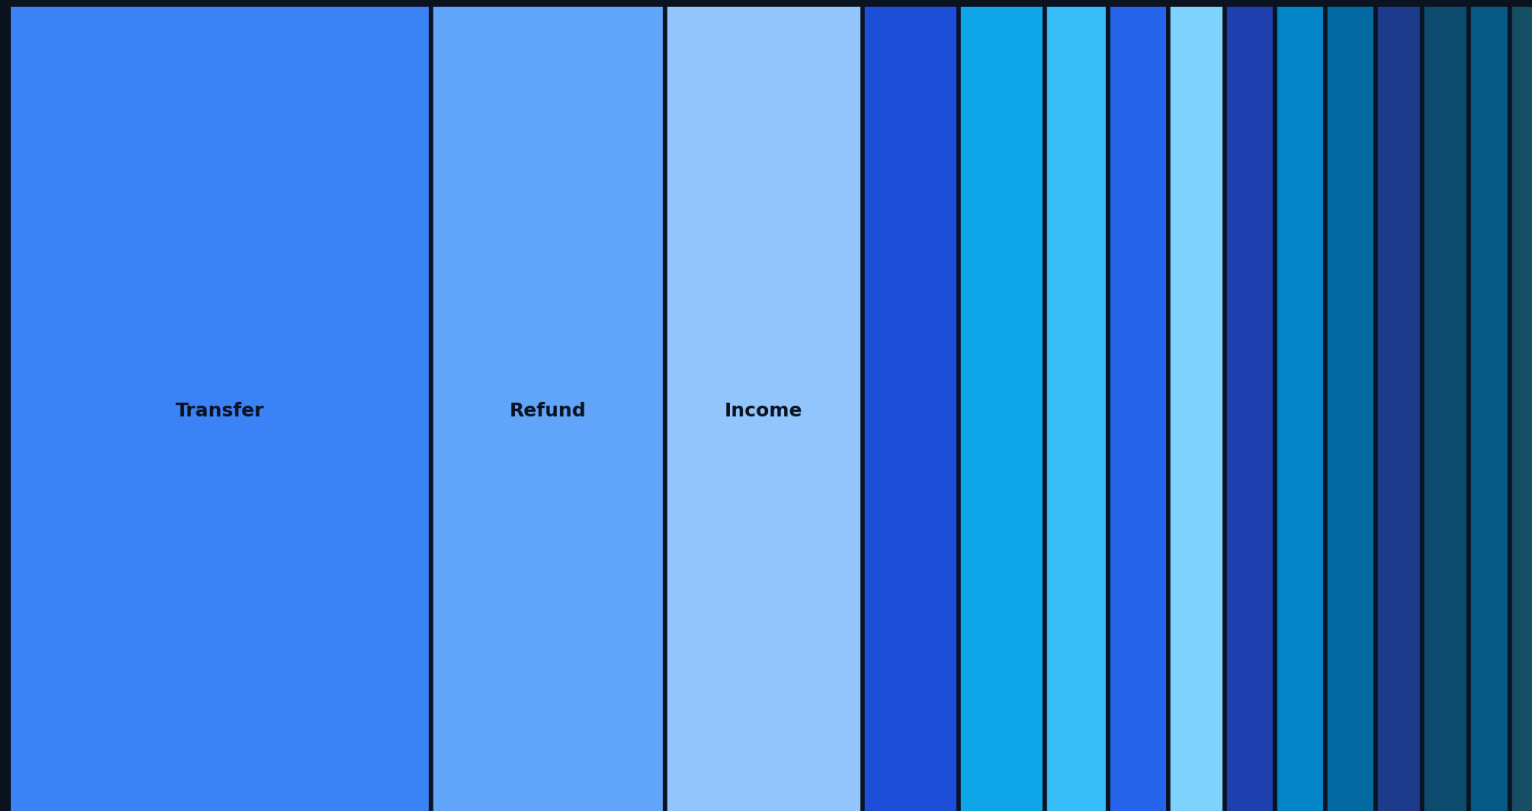

RECOMMENDED VISUALIZATION

Treemap

BUSINESS TAKEAWAY

Identifying high-activity merchant categories helps the organisation understand customer spending behaviour and prioritise relevant merchant partnerships and promotional opportunities.

Transaction Amount by Merchant Category

BUSINESS PROBLEM

Understand geographical distribution of customer transactions.

REQUIRED COLUMNS

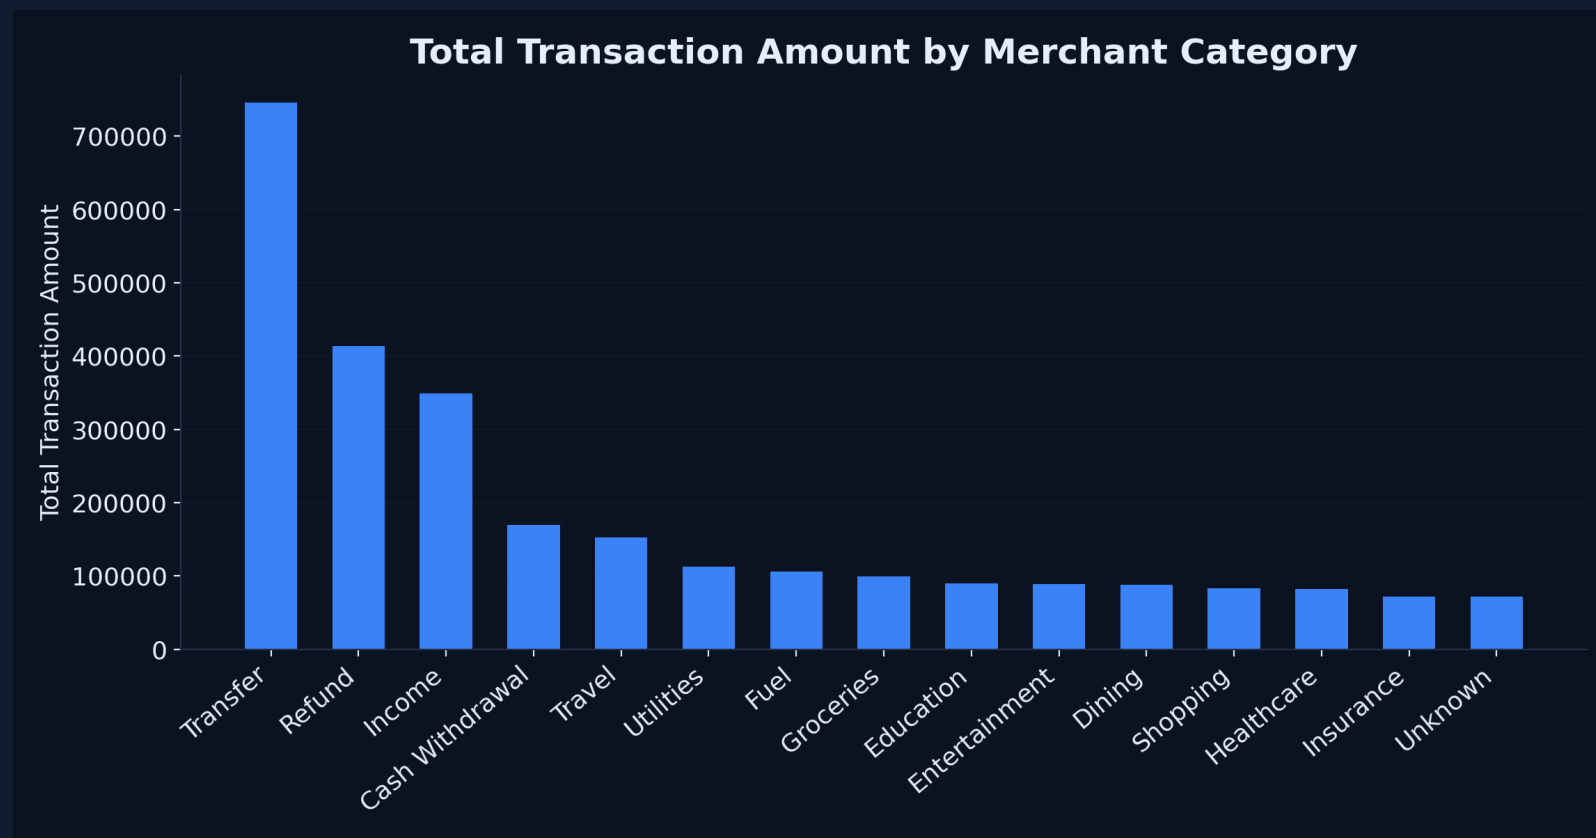

- location_city
- transaction_amount
- transaction_id

RECOMMENDED VISUALIZATION

Column Chart

BUSINESS TAKEAWAY

Comparing transaction activity across cities helps the organisation identify differences in regional customer engagement and support location-based business planning.

BUSINESS PROBLEM

Determine which transaction channels handle the highest transaction activity and value.

REQUIRED COLUMNS

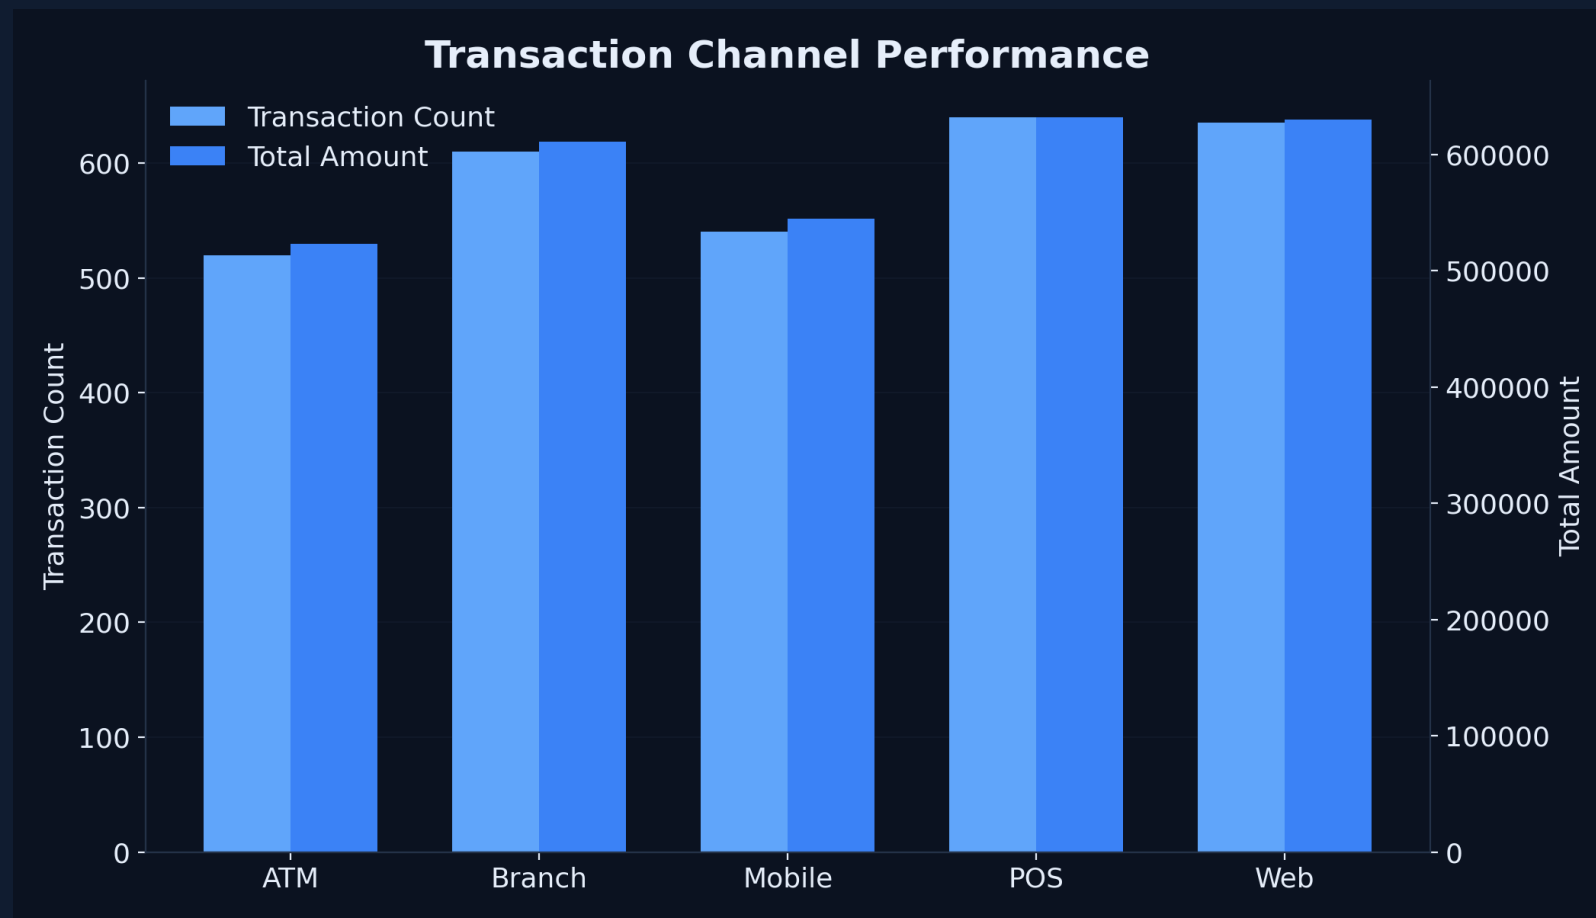

- transaction_channel
- transaction_amount
- transaction_id

RECOMMENDED VISUALIZATION

Clustered Bar Chart

BUSINESS TAKEAWAY

Analysing transaction channels helps the organisation understand how customers access its services and identify channels that may require further investment or optimisation.

Compare Transaction Activity Across Account Types

BUSINESS PROBLEM

Understand how customers with different account types use banking services.

REQUIRED COLUMNS

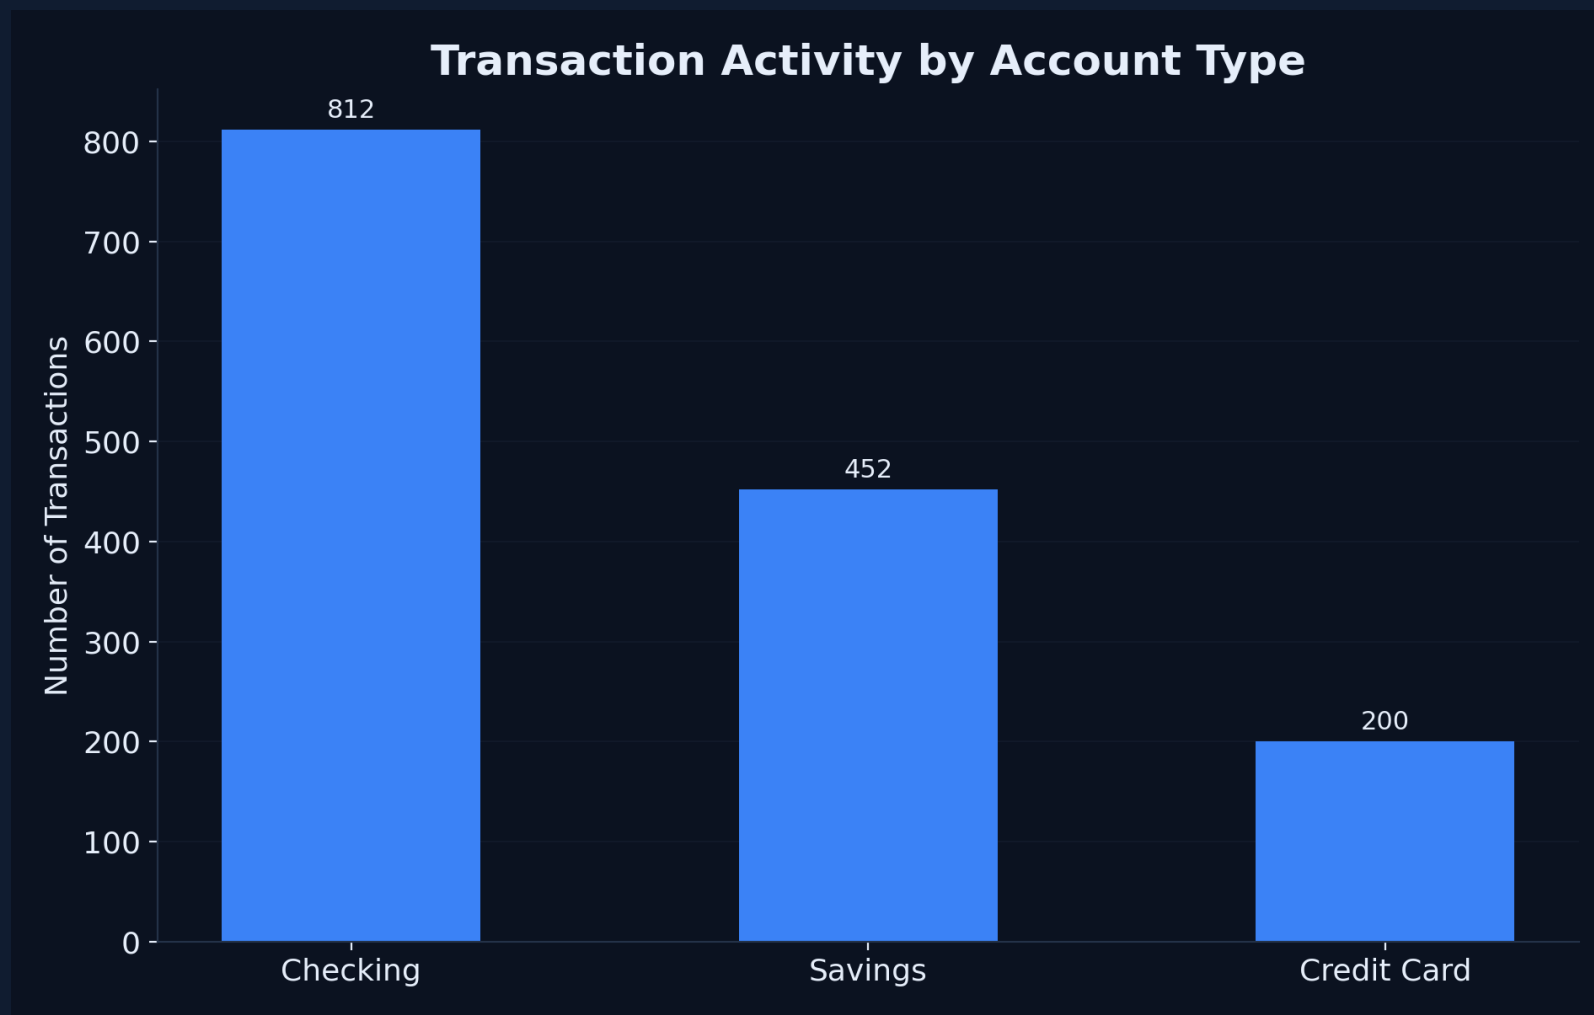

- account_type
- transaction_amount
- transaction_id

RECOMMENDED VISUALIZATION

Column Chart

BUSINESS TAKEAWAY

Comparing account types helps the organisation understand differences in customer engagement and support the development of more targeted banking products and services.

BUSINESS PROBLEM

Determine which merchants receive the highest customer transaction activity.

REQUIRED COLUMNS

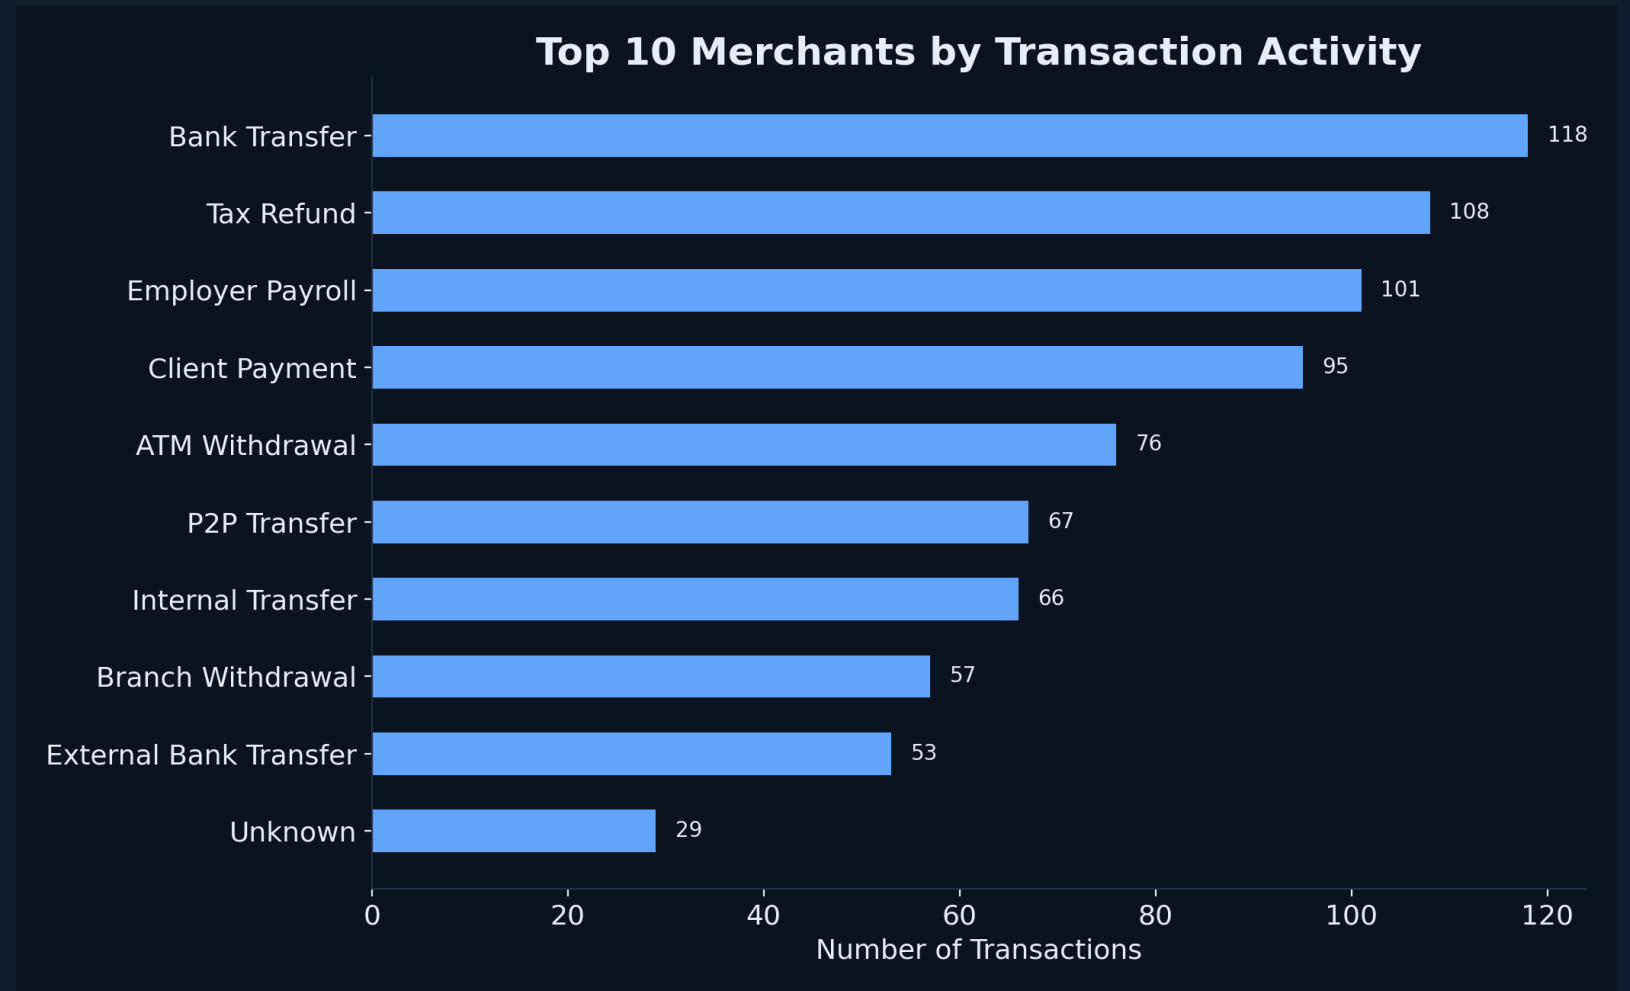

- merchant_name
- transaction_amount
- transaction_id

RECOMMENDED VISUALIZATION

Horizontal Bar Chart (Top N Merchants)

BUSINESS TAKEAWAY

Identifying high-performing merchants helps the organisation prioritise strategic partnerships and focus relationship management efforts on the most active merchant relationships.

Analyze the Distribution of Transaction Amounts

BUSINESS PROBLEM

Understand how transaction amounts are distributed to identify typical value ranges and outliers.

REQUIRED COLUMNS

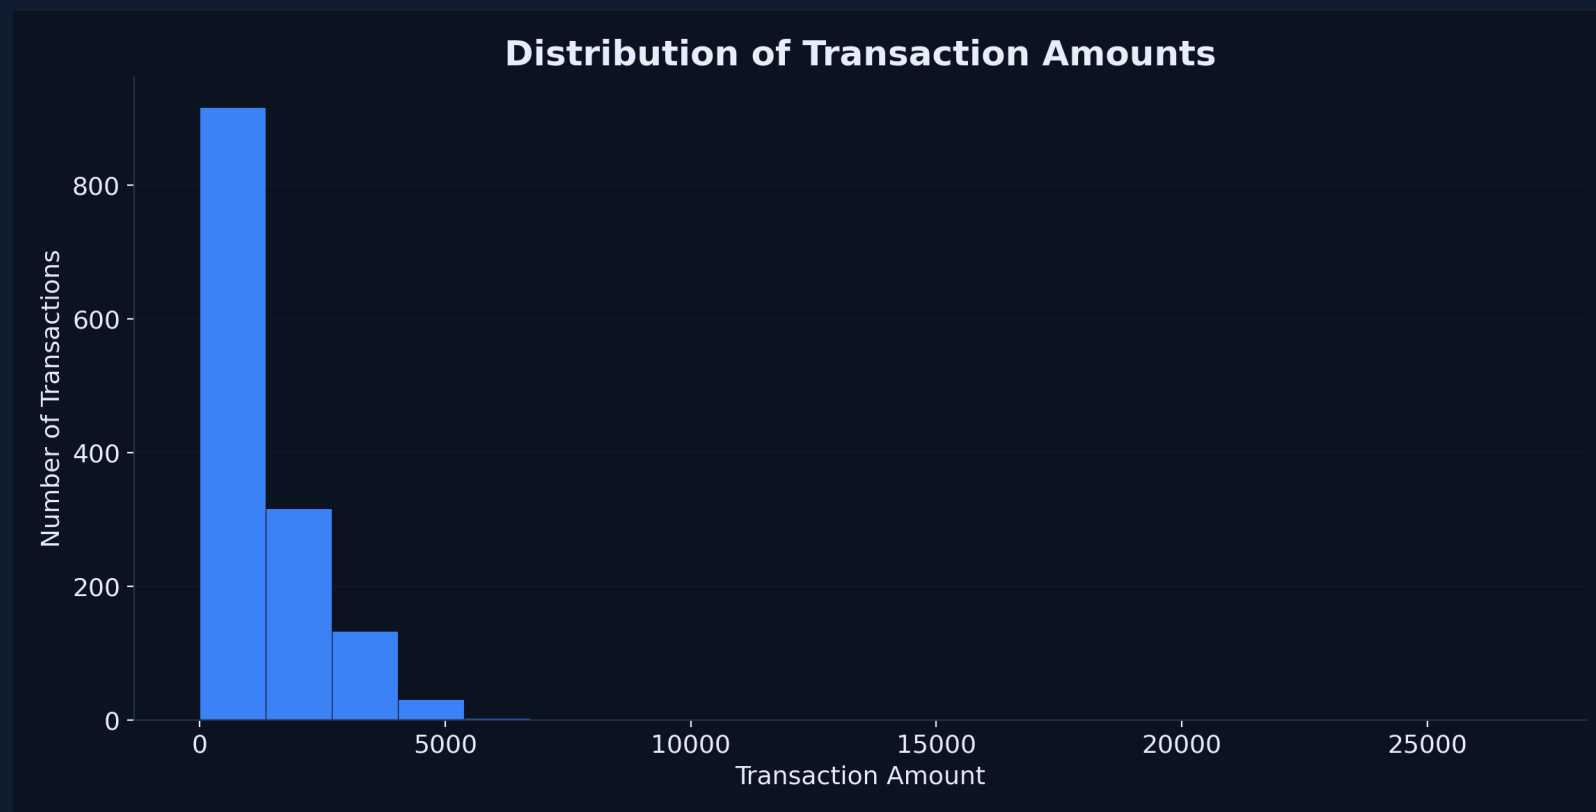

- transaction_amount
- transaction_id

RECOMMENDED VISUALIZATION

Histogram

BUSINESS TAKEAWAY

Understanding transaction value distribution helps the organisation identify common transaction ranges and highlight unusually high-value activity for further monitoring.

BUSINESS PROBLEM

Understand how customer account balances change after transactions.

REQUIRED COLUMNS

- balance_before
- balance_after
- transaction_amount
- transaction_id

RECOMMENDED VISUALIZATION

Scatter Plot

BUSINESS TAKEAWAY

Monitoring changes in account balances helps the organisation understand the financial impact of transactions and identify significant balance movements that may require further review.
